## **The health and safety instructions**

Puc 'Parking Servis' has issued health and safety instructions for customers and employees during the pandemic.

In order to minimize any potential health risks, 'Parking Servis' encourages the users for contactless and online parking payment.

Around 150 infoboards are installed in our parking facilities as guidelines for protection and safety, recommending distance of 2 meters, protective equipment including mask and gloves, all in order to urge citizens to follow health measures that will save lives.

'Parking Servis' provides recommendations by the state authorities in Serbia, regarding the prevention and protection of the Coronavirus that applies to both employees and customers, emphasizing the importance of hygiene and health care.
