

Parking Payment by the Commenced Hour

Parking payment by the commenced hour

PAYMENT VIA SMS – Text message is sent to one of the following short numbers:

- **9114** – for 30 minutes of parking in **zone A**
- **9111** – for an hour of parking (half an hour of extended parking) in zone 1 – **red zone**
- **9112** – for an hour of parking in zone 2 - **yellow zone**
- **9113** – for an hour of parking in zone 3 – **green zone**
- **9119** – for an hour of parking in zone with no time limits – **blue zone**
- **9118** – for a daily parking in some parking lots, according to vertical traffic signs – **blue zone**

Method of payment

Text should contain only licence plate no. (no space between the numbers or letters). Users whose mobile phone does not obtain the letters with diacritical signs should set the UTF8 or UNICODE, depending on phone platform, if their registration plates require this.

It is possible to send two or three text messages at once, if it is within the time limits of the particular zone. When texting to prolong parking ticket, any sender can, instead of the typing the whole registration plate, simply reply to the previously received SMS with the asterisk (*).

Extended parking time can be paid within 5 minutes before the time limit of the zone expires, after receiving information about the expiration of the maximum allowed parking time.

PAYMENT VIA PARKING APP – In zoned areas, the App automatically recognizes the zone in which vehicle is parked and suggests the various kinds of payment methods – via SMS, payment card, or through in-App Deposit.

PAYMENT BY e-PARKING TICKET – buying hourly e-Parking ticket at shopping facilities networks and at parking controller.

e-Daily parking ticket

e-Daily parking ticket (eDPT) is issued to users who haven't paid for the parking service in advance (parking ticket not paid) and also to users who have expired limited (extended)

parking time.

eDPT is valid from the moment of issuance until the same time on the first following day when parking charges are applied and only in the zone where it was issued.
